Overall School Performance: **Strong**

January 18, 2001

Dear Parents and/or Guardians,

We have much to be proud of in Oregon's schools. Students throughout the state are striving to meet high academic performance standards and we are seeing positive results. The scores on state assessments, national tests and international science and math tests are all on the rise.

Your school's overall rating is shown above. This rating is based on student performance, student behavior and school characteristics. The individual ratings in these areas are shown inside.

While this report card cannot tell you everything about your school, it is a good starting point for discussions on how well the school is doing, where it is succeeding, and where there is room for improvement. These conversations are necessary if all of Oregon's students are to achieve high standards.

Your feedback is important as we continue to develop the report card. Please call our office at (503) 378-3600 ext. 2353 or e-mail us at report.card@state.or.us.

Sincerely,

Stan Bunn
State Superintendent of Public Instruction

STUDENT PERFORMANCE

Statewide Assessments

Rating: **Strong**

The student performance rating is based on annual state test results. Improvement over time and percent of students meeting the state standards in Spring, 2000 are combined to calculate this rating.

IMPROVEMENT OVER TIME

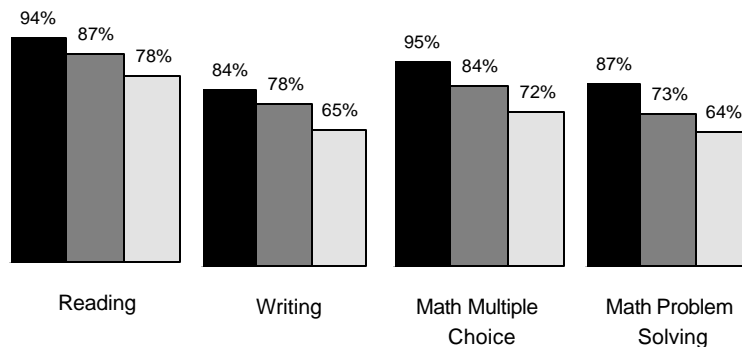

The table below shows your school's improvement on reading and mathematics multiple choice test results over four years— Spring, 1997 through Spring, 2000.

YOUR SCHOOL'S STUDENT PERFORMANCE	
0	Improved over time
	Stayed about the same over time
	Declined over time
	Unable to determine improvement over time

PERCENT OF STUDENTS MEETING STANDARDS

The graph below shows the percent of students at your school who met state standards on Spring, 2000 reading, writing, mathematics multiple choice and mathematics problem solving tests. Results for the same grade level of students in Oregon schools with similar demographics (comparison schools) and the state also are shown.
