

# SMS Text Alerts

Arleta now offers SMS Text Msg Alerts sent directly to your cell phone. By signing up, parents will receive a text message reminding them of important dates and events. Messages are organized by grade level. While some alerts will be sent to all parents, for example reminding them of a two hour late start, other messages will be sent only to specific grades, such as a message reminding a specific grade of a field trip. Parents can expect to receive as few as one text a week but never more than one a day. Your cell phone service may charge you for text message so please consult your cell service before signing up for Arleta's SMS Text Msg Alerts.

Parents with students in more than one grade level category will want to sign up for each. Complete the form below or go to the school website to sign up for SMS Text Msg Alerts.
