Great Wolf Lodge

When I was nine I went to a place called the Great Wolf Lodge and it was awesome there. The reason why I say that is because it had a water park a vid-io game arcade, alsoe there are some wands, you can wave it at something and it will move or talk. And that is why I am writing about it so I hope you like it.

So like I said when I was nine I went to a place called the great wolf lodge it was cool. The first day I was there we went to ower room for my baby brother, my sister, me, my mom and my step dad. After we packed it in we went to the pool.

When we where going to the pool I thought it was gana be dull there .but it was awesome because there where water slides, a wave pool, a hot tube. Alsoe a lily frog pad jumper to. Plus there was a big humongous bucket full of water!!!!!! And I enjoyed everything there. We stayed there for hours.

Ok now that iv told you about the water park I should tell you about the wands. And like I said in the intro “that you can wave it at something and it move or some thing. So the way how I think it woks is there is a sensor inside of the wand and when ever you wave it at something the sensor will send a message to the object to move or to talk. So the way you get started is you go to the shop inside the lodge and you choose you’re wand after

you choose you're wand you give it to the man and hill ask what is you're wizards' name going to be then you tell him after that the man will give you a bottom so the wand works.

Now that iv told you about the wands I should tell you about the video game arcade. The video arcade is awesome and the reason why is because there where adventure games, shooting games, war games, and the first thing I did is play this star wars game it was awesome.

The Great Wolf Lodge
