\*Tangereen Claringbold, Nathan Fuller, and Michael Lu have been rescheduled to 9:45-11 a.m. for the Environmental Systems and Societies Paper 1 due to the conflict with Physics testing in the afternoon. ALL other E.S.S. students should report to Paper 1 at 12:30 p.m.

\*\* The temperature in the testing room is typically cooler than other places in the building. Please bring a sweater or jacket.

### Principles of Scheduling

1. The International Baccalaureate Organization sets the dates and time parameters for exams. All morning exams must be taken between 7 am and 1 pm. All afternoon exams must be taken between 12 p.m. and 6 p.m.
2. Whenever possible, consistent start times have been set for morning and afternoon exams. Most morning exams begin at 8:15 a.m. and afternoon exams begin at 12:30 p.m.
3. The morning start time was adjusted on the morning of May 11, to accommodate 3 students who are sitting for exams in three areas that day. Afternoon start times were adjusted on May 10, 14, and 17 in an effort to finish as close to the end of the school day as possible. Students will also start early on May 17 to ensure adequate break and lunch time and the earliest possible start time for afternoon exams.
4. 15 minutes has been added to the time of each examination to allow for the reading of instructions and 5 minutes reading time (for all exams except multiple choice exams in science).
5. Students taking more than one exam component in any subject area on the same day will have a 15 minute break in between “Papers”.
6. Students who are examining in both morning and afternoon sessions on the same day will have at least 30 minutes for a lunch break between exams. If you are in this situation, please bring a substantial and healthy lunch.
