Day 32, AM (Week 8)

array: (n). 1. a large or impressive group or display
2. beautiful or splendid clothing

Ex: An **array** of brightly colored flowers lined the parade route. Soon, the queen appeared in royal **array**.

Use **array** in a sentence that helps to describe its meaning.

EXERCISE YOUR BRAIN

Genius without education is like silver in a mine.
- Benjamin Franklin

AM: 1st / 2nd / 3rd

Students were guided through a model of a new vocabulary activity: the "interview." Students were then assigned a pair to creatively write an interview for their assigned vocabulary word, which they later performed.

Students demonstrated their learning from History Alive! on their unit one test.

PM: 5th / 7th

Students were assigned one chapter from the upcoming history test upon which to become an expert. Each student was given time to plan a lesson to teach to four peers (because teaching is an effective method for deeper learning). The expert students met first within their own expert chapter to verify and clarify, and then the small groups gathered to teach to and learn from each other in order to review!
